**4.3** [50 Verified Reviews](#)

03/07/2014      General Motors      Manufacturer Safety recall issued  
 NHTSA# 14V047  
 Recall #N130454  
 IGNITION SWITCH REPLACEMENT  
 Status: Remedy Available

Locate an authorized [General Motors dealer](#) to obtain more information about this recall.

- [Learn more about this recall](#)

**Description:** General Motors is recalling model year 2005-2007 Chevrolet Cobalt, and 2007 Pontiac G5 vehicles. In these models, the weight on the key ring and/or road conditions or some other jarring event may cause the ignition switch to move out of the run position, turning off the engine.

If the key is not in the run position, the air bags may not deploy if the vehicle is involved in a crash, increasing the risk of injury.

**Remedy:** Dealers will replace the ignition switch, free of charge. Please contact your local GM Certified Service Dealer to order parts or visit [www.gmignitionupdate.com](http://www.gmignitionupdate.com) for additional information.

04/16/2014      General Motors      Manufacturer Safety recall issued  
 NHTSA# 14V171  
 Recall #N140113  
 REPLACE IGNITION LOCK CYLINDER AND  
 IGNITION KEY  
 Status: Remedy Available

Locate an authorized [General Motors dealer](#) to obtain more information about this recall.

- [Learn more about this recall](#)

**Description:** General Motors is recalling certain model year 2005-2010 Chevrolet Cobalt, 2006-2011 Chevrolet HHR, 2007-2010 Pontiac G5, 2006-2010 Pontiac Solstice, 2003-2007 Saturn Ion, and 2007-2010 Saturn Sky vehicles. In the affected vehicles, the key can be removed from the ignition when the ignition is not in the "Off" position.

If the key can be removed from the ignition when the ignition is not in the "off" position, the vehicle could roll away: (a) for an automatic transmission, if the transmission is not in the "Park" position; or (b) for a manual transmission, if the parking brake is not engaged and the transmission is not in the "Reverse" position. This potential for rollaway increases the risk for a crash and occupant or pedestrian injuries.

**Remedy:** Dealers will replace the ignition cylinder and cut two ignition/door keys and relearn keys, if necessary for each vehicle free of charge. Please contact your local GM Certified Service Dealer to order parts or visit [www.gmignitionupdate.com](http://www.gmignitionupdate.com) for additional information.

**Owner 4**

**Glossary**

[View Full Glossary](#)

**Accident Indicator**

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 8/29/19 at 7:51:26 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

**New York Damage Reports:**

- Do not include an assessment of damage severity
- Are required if the estimated damage exceeds \$1000

**Commercial**

Vehicle was registered for business purposes.

**Failed Emissions Inspection**

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

**First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Inspections**

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

**Manufacturer Recall**

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

**New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
