08/08/2014		General Motors	Manufacturer Safety recall issued NHTSA# 15V285 Recall #N140491 FRONT PASSENGER AIRBAG Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. - Learn more about this recall

Description: The subject vehicles are equipped with front passenger airbag inflators which may have been manufactured in such a way as to have a potential for the intrusion of moisture over time. Depending on the circumstances, this potential condition could create excessive internal pressure when the air bag is deployed, which could result in the body of the inflator rupturing upon deployment.

In the event of an inflator rupture, metal fragments could pass through the air bag cushion material, which may result in injury or death to vehicle occupants. Until the repair is performed, the front passenger seat should NOT be occupied.

Remedy: Dealers will replace the front passenger airbag module, free of charge.

09/09/2014	115,637	Martin's Auto Wayland, NY 585-728-9810 4.9 ★★★★★ 27 Verified Reviews	Vehicle serviced
01/27/2015		General Motors	<p>Manufacturer Safety recall issued NHTSA# 15V043 Recall #N140877 SUPPLEMENTAL RESTRAINT SYSTEM AIR BAG CONTROL MODULE Status: Remedy Available</p> <p>Locate an authorized General Motors dealer to obtain more information about this recall.</p> <p>- Learn more about this recall</p>
<p>Description: Toyota is recalling certain model year 2003-2004 Corolla and Corolla Matrix vehicles and 2003-2004 Pontiac Vibe vehicles. The supplemental restraint system (SRS) circuits are susceptible to internal shorting. The electrical short may create an abnormal current flow and increased heat which can damage the circuits. This could result in an inadvertent deployment of the front airbags and/or seat belt pretensioners.</p> <p>Inadvertent deployment of the airbags or the seat belt pretensioners may increase the risk of injury and the possibility of a vehicle crash.</p> <p>Remedy: All owners that have not had recall 13030 performed are strongly encouraged to do so and not wait for the final remedy to be deployed for this recall. The replacement ECU parts needed for the final remedy are not expected to be available until the latter part of 2015. Vehicles that had a noise filter installed as the remedy under recall 13030 still need to have the air bag control module replaced under recall 14877 free of charge.</p>

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Inspections

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
